Screen mounts should almost be invisible...they should feel like a natural part of the space. Our award winning design sits just 20mm proud of the wall and still it hides all of the cabling and trunking within it's frame.

This stylish, twin column design has near silent movement (750mm of electronic vertical travel) plus tilt control. The maximum screen size is 130kg and 86".

Additional function and control is tailored to your needs through a range of accessories.
