

Hi-Lo® 500 SmartConnect™

PRODUCT CODE 8850

Video conferencing solutions that fit anywhere. Whether in the boardroom, within an office or integrating into an existing classroom -

the Hi-Lo® Smart Connect™ all-in-one Video Conference Suite is loaded with all the features you will need.

Video Conference Camera Shelf and Integrated Sound bar mount - can be mounted above or below screen.

Internal Power Management Is fully integrated as standard, via an internal 4 way power strip that combines 2 IEC outlets - to power the screen and peripherals from just one mains input cable.

External AV Connectivity External connections come via 2 x HDMI, 2 x USB, 2 x RJ45 - found within the mount.

Built-in anti-collision technology - the motor cuts out and reverses by 30mm and powers off when an obstruction is detected.

A mobile solution - wheeled into position and raised to the perfect height, shared between rooms, easily moved and stored.

Options If you need additional AV storage for small form PC's such as the Intel NUC, we have a range of mounts to integrate them onto your Smart Connect.

SAFETY

Stability and your safety are always a priority, we carry out extensive safety testing of our products - design, construction, maneuverability and all electric components, for total peace of mind.

PERFECT VIEW

Perfect view - smooth electrical operation raises and lowers the screen by either 500 or 600mm, accommodating all screen sizes and ensuring that all users have good, clear access to the display.

TECH SPEC

Max screen size - from 65"
Max screen weight - 100kg

VESA pattern - up to 800mm wide and 600mm high.

Electric travel - 500mm creating working heights between 1035 and 1535mm
